

RE: MB Docket No. 15-149

August 18, 2015

Tom Wheeler  
Chairman  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear Chairman Wheeler,

After careful consideration and reflection on the impact of either outcome, I am writing to you to endorse the proposed merger of Charter Communications, Time Warner Cable and Bright House Network.

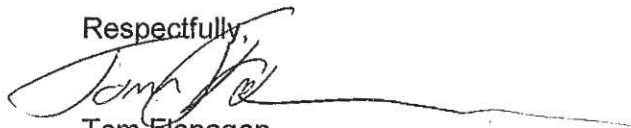

In addition to the positive economic impact Charter makes on the community in Worcester, MA and the surrounding area, the operation is an invested partner in the betterment of its neighbors, and that is the angle from where I am coming.

I work for the American Cancer Society, and Charter Communications and its Worcester-based staff has been a valued and beloved partner for our fundraising events in and around Worcester for nearly a decade.

Their support of our Relay For Life event, held annually in the city, enables the Society to continue its lifesaving work. Through fundraising events and awareness campaigns, Charter has been an ardent supporter of the American Cancer Society's Hope Lodge Worcester, a free home away from home for cancer patients and their caregivers who must travel from around the region or around the nation to receive care.

In closing, please consider the thoughts of organizations like the American Cancer Society and the many other non-profits that have been helped and had their respective missions advanced through the support of Charter and its people.

Respectfully,

Tom Flanagan  
Communications Director  
American Cancer Society  
30 Speen St., Natick, MA 01701
